Belfast

## EDUCATION

---

### Queens University Belfast

Bachelor of Engineering, Computer Science

June 2019

Degree Plus | 2:1

## SKILLS

---

### Languages:

Java, C#, R, Swift, SQL, HTML, CSS, JavaScript, VBA, Google App Script

### Technologies/Frameworks:

Git, Slack, Node.js, Bootstrap, React, ASP.NET Core, Microsoft SQL Server, Oracle SQL Developer, Microsoft Office, UiPath

## EXPERIENCE

---

### RPA Developer | PricewaterhouseCoopers (PwC)

Sept 2020 to Present

- Certified RPA Associate with UiPath.
- Delivered unattended bots end to end, working with business analysts on gathering requirements, following an agile approach to development with client feedback and hosting presentations with hypercare after project delivery.
- Experience setting up Orchestrator environments with queues, triggers, virtual machines, and assets.
- Use of source control with Microsoft Azure repos and GIT and Azure boards for sprints.
- Developer on a project working to automate Outlook, Microsoft SQL Server, and Civica APP while leading and mentoring a junior on UiPath and SQL.

### Financial Technology Specialist | PricewaterhouseCoopers (PwC)

Sept 2019 to Sept 2020

- Created a split database solution for client outreach for a large multinational investment bank.
- Created SQL scripts for table generation, data manipulation, validation, and transformation.

### Technical Support Level 2 Placement | HSC Business Services Organisation (BSO)

Aug 2017 to Aug 2018

- Worked to troubleshoot IT issues, working with Active Directory, virtual machines, email policies, legacy systems, and the creation of PowerShell scripts to automate processes.

## PROJECTS

---

### Final Year Project – Nurse Rostering Web App

- Worked with Belfast company EventMap Ltd. to develop a web app and the algorithm behind a solution for automatic nurse/shift rostering using ASP.NET Core MVC framework using C#, JavaScript, CSS and HTML. Linked to a MSSQL Server backend. **Result: 2:1.**

### Portfolio website

- Web app and text-based adventure game made with React with JS. Found at [www.phillipchong.me](http://www.phillipchong.me).

### Catalyst – Co-Founders – iOS App

Mar 2020 – July 2020

- Made it to the final round of Catalyst Innovation Centre's Co-Founders programme as a developer. Part of the 3-person team 'ByBike' aiming to create a bicycle tour planning mobile app using Swift UI.
